

Academic Advisory System

- 1- What do you think about the amount of required work for academic advisory?
Reasonable.
- 2- In your opinion, do you spend enough amount of time in advising meetings?
Yes, whenever required
- 3- In your opinion, how you can make the most of advising meetings time?
Students should attend on regular basis, advisors should have copies of all required doc of the faculty (such as curriculum, access to student records)
- 4- How do students benefit from time for academic advisory?
They get enlightened about their rights and how they should go about specific issue.
- 5- Do you think Whatsapp is an effective communication way with your students?
No, not normally...I think it should only be used in extreme cases.
- 6- What is the importance of compatibility between the advisor and his students?
Very important
- 7- Do you face any problems with the number of students in the advisory group?
The number is a bit high...but manageable
- 8- In your opinion, why more than half of the students do not visit their advisors?
May be they are lazy (many students miss classes in the first place)..or may be they don't think it is useful!
- 9- Why 57% of advisors feel satisfied with academic advising, although the first answers are negative?
Don't understand the question
- 10- According to the formal training statistics which maybe the useful way or method to train?
Question not clear
- 11- How we can encourage students to communicate with their advisors?
Offering good advice
- 12- What are the things that may prevent communication between the student and the academic advisor? And how we can avoid these things?
Language barrier, some students don't speak good English and are unable to communicate with non-Arabic speakers. May be also cultural barriers
- 13- How would you explain the relations between the courses for your students?
Depends on the nature of the courses.

14- Why some advisors do not know about regular advising sessions offered at the faculty?

Lack of publicity/communication

15- In your opinion, how would assess the academic advisory training?

Not sure
